

**At Miroculus our mission is to advance science
and improve lives, faster, together.**

Manufacturing Associate

Miroculus is looking for a Manufacturing Associate with a strong technical background to help us scale our novel digital microfluidics platform.

About Miroculus

Miroculus uses proprietary digital microfluidics technology to automate and miniaturize the most complex genomic protocols such as NGS library prep, synthetic biology, cell editing, and combinatorial chemistry, in a compact, user-friendly system. Our vision is to make the most complex protocols easy and accessible to scientists everywhere.

Position Summary:

- Work as part of a team assembling delicate, precision parts for electronics and medical devices in a clean room environment
- Maintain clean room best practices for gowning and material handling
- Perform light assembly duties involving equipment such as plastic laser welding, leak testing, and heat staking
- Perform visual inspection before, during, and after assembly
- Report any issues that arise with parts, equipment, or quality
- Ensure safe and clean work area
- 6 - 12 month Contract

This position reports to the Manufacturing Supervisor.

Requirements:

- Associate degree or equivalent
- 3-5 years manufacturing and assembly experience in a clean room environment
- Experience in assembly of small & delicate components
- Excellent organizational, communication, and data logging skills
- Experience with equipment like plastic laser welding, spray coating, baking oven, leak testing, heat staking, and power tools.
- Meticulous attention to detail and ability to follow standard operating procedures
- Handle weights up to 20 lbs

Strong plus:

- Experience with delicate capital equipment
- Good hand eye coordination, dexterity, and clean room proficiency (ISO 8)
- Willingness to work on first or second shift

Location: San Francisco, California

Applicants should send a cover letter and resume to jobs@miroculus.com
